REQUEST:

It is requested that the City Council consider:

1. Adopting Resolution No. 2016, authorizing advertising and call for bids to repair Post Indicator Valves and Piping at Hangar #510 at the Marina Municipal Airport.

BACKGROUND:

The acquisition of a former military airfield such as the Marina Municipal Airport challenges the City since the facility comes with outdated structures and infrastructure. The Marina Municipal Airport faces these challenges with the need to catch up in facilities maintenance.

ANALYSIS:

The existing Post Indicator Valves and associated piping serving the sprinkler system to Hangar #510 at the Marina Municipal Airport is in need of repair in that at this time they are inoperable. In their current condition water to the sprinkler system cannot be controlled. Post Indicator Valves are required to be operable so fire protection can be assured to protect the building.

FISCAL IMPACT:

There is no fiscal impact when calling for bids.

CONCLUSION:

This request is submitted for City Council consideration and possible action.

Respectfully submitted,
