

CITIZENS INSTRUCTIONS **FOR STORM EVENTS**

Before The Storm:

- Inspect all drainage systems on your property for debris.
Ex: Roof Gutters, Downspouts, Area Drains, etc.
- Perform regular maintenance of these locations, especially during the fall and winter where leaves may collect and cause roof damage.
- Call the Community Development Department at (831) 884-1212 if you are aware of any storm drain inlets along the street that requires maintenance.

- Keep an emergency kit available should a major emergency event arise. Such kits should have:
 - Portable radio, lights and flashlights, first aid supplies
 - More information on emergency supplies could be found at <http://www.ready.gov/floods>

When you receive a Storm Warning:

- If a heavy storm is likely and time permits, move essential items, valuable papers, jewelry and furniture to upper floors of your house or higher elevations.
- Bring outdoor possessions that may be damaged inside the house or tie them down securely.

During The Storm:

- Should you or your property experience any dangerous situations during a storm even, Contact the Public Safety Dispatch at (831) 384-7575
- Do not attempt to drive over a flooded road. You can be stranded and trapped.
